

## G8 BIBLIOGRAPHY

*Compiled by Peter I. Hajnal, University of Toronto*

*30 May 2004*

Selective list of monographs, articles in periodicals (journals and magazines but generally not newspapers except for analytical and other articles by principal summit personalities and reports of reference value), and governmental and international organization publications. Items listed deal entirely or partly with the G7/G8 or with G7/G8-related issues.

Methodological note: this bibliography is based on searches of catalogues of various major libraries, and a number of databases, indexes and bibliographies. Wherever possible, items were inspected prior to inclusion in the bibliography.

Note on web addresses and links (URLs): websites tend to appear, change or disappear, often without warning. URLs cited in this bibliography were accurate and active at the time of final compilation (March-April 2004) unless otherwise noted.

For their important and various contributions, I wish to thank Professor John Kirton and members of the G8 Research Group, particularly Madeline Koch and Marc Lalonde; Dr. Hugo Dobson of Sheffield University; Chen Xiaojin of the China Institute of Contemporary International Relations; Gillian Clinton, Katrina Švihran and Ellen Yurkovska; academic colleagues and library staff at the University of Toronto. Others in Canada, the UK, Japan, the US and elsewhere who have helped are too numerous to be named here but they all have my gratitude.
